In our shop, the items are organised in categories. All you have to do is to **click on a category** of your interest, **select a tile** and see **what item it reveals.**

If you like the item, you can **put it in your shopping trolley**. If you don't like it, press the back button, open another tile, or move to another category.

You can also scroll down to find more categories.

Next

---

---

---

---

---

---

---

In the top right corner, you see **your trolley**. When you click on it, you can check all the items you have selected, and remove any you want.

In the top left corner, you see **your budget, which is initially set to £1000**, and it declines with every purchase that you make.

Between your budget and your trolley is a **15-minute timer** that counts down the time remaining for you to shop.

---

As the shop is new, the **items do not yet have a price tag**. To find out how much they cost, you'll have to put them in your trolley. Then you can see how much your budget declines. If you change your mind, you can remove the item from your trolley using the remove button.

For the next **15 minutes**, you can buy **whatever you like**. We will give you a **budget of £1000**, which you can use in full. Any remaining money will be lost when the 15 minutes are up.

## IMPORTANT NOTICE

We have just learned that **there have been problems with the delivery**. The orders of all our customers have been mixed up. We are very sorry about the inconvenience.

Our customers are very important to us. We will now give all our customers the **opportunity to claim items free of charge**.

Next

We are now going to show you all the goods that were due for delivery. They will appear on the screen one at the time, in random order.

You can claim any item by pressing the SPACE BAR. However, before you can see the item, **a light goes on, signaling that you have to make a decision** as to whether you want to claim it.

From the colour of the light, you can infer whether the next item will be from your order or from someone else's order.

On the screen, you will see a shopping trolley. At some point, the light above the trolley will light up to signal whether the next item is from your order or from someone else's order.

You can claim any item by pressing the SPACE BAR while the light is still on. A successful claim is indicated by two green ticks.

---

---

---

---

---

---

---

---

Over the next few trials, you need to find out, which of the two coloured lights is associated with your order and which is associated with another customer's order.

If you decide to claim the item, you should **press the SPACE BAR while the light is still switched on.**

Be aware that other customers are also online and may claim the same item. This means that not all your claims will be successful.

Next

---

---

---

---

---

---

---

---

So several outcomes are possible:

- You press the SPACE BAR and successfully claim the item.
- You press the SPACE BAR and nothing happens.
- By doing nothing, you can still get the item.

**In order to get what you want you need to work out a strategy of when to act.**

Please note that we will interrupt you from time to time to ask you how things are going.

Please press next when you are ready to start.

Please mark on the line below, how likely your claims were successful when you pressed the SPACE BAR.

---

Before you leave our shop, we would like you to recommend us to others by getting presents for them, which we will pay for.

- For your mother: **a bunch of flowers**
- For your next-door neighbour: **a box of chocolates**
- For a 5-year old girl: **a cuddly toy**
- For a friend: **a book**

Make sure that you remember these **4 things** because **you'll only have 5 minutes** to get them.

Press next when you are ready.
